

Taste and Smell: Frontlines in Immunology

A Penn-Monell Symposium

Wednesday, January 20, 2021
8:00am—12:00pm EST
Virtual on Zoom | [Register here!](#)*

8:00am	Welcome: Kevin Foskett <i>“Overview of taste”</i>
8:20am	Keynote: Noam Cohen <i>“Taste receptors: regulators of sinonasal innate immunity”</i>
	<u>Session 1: Chemical Senses, Regeneration and Immunology</u>
9:00am	Peihua Jiang <i>“Taste cells and type 2 immunity”</i>
9:15am	Marco Tizzano <i>“Gingival solitary chemosensory cells are immune sentinels”</i>
9:30am	Bruce Kimball <i>“Detection of illness by volatile chemical analysis”</i>
9:45am	Andrew Vaughan <i>“Tuft cells and lung remodeling”</i>
10:00am	Hong Wang <i>“Immunology and taste cells”</i>
10:15am	Rob Lee <i>“Taste receptors in immune cells”</i>
10:30am	Coffee Break
	<u>Session 2: COVID-19 and Smell Loss</u>
11:00am	Pamela Dalton <i>“Postviral smell loss”</i>
11:15am	Jay Gottfried <i>“COVID-19 and smell loss”</i>
	<u>Session 3: The Future of Chemosensory Science</u>
11:30am	Keynote: Nancy Rawson: Vision of Penn & Monell as partners in immunology and beyond
